

## Children's Insoles

### KID'S SOFT

#### Art. 105

Colorful, fabric covered with airy, hypo-allergenic latex shoe pad. Soft gives children a little extra cushioning in their shoes. Helps fit shoes that are a little big. Soft is hand washable with a pleasant lemon fragrance.

### \*KID'S JOY

#### Art. 122

Made of fine suede leather, Joy is resilient and flexible, allowing the free play of the muscles of children's feet, thus strengthening them. Foot supports are proven to be extremely useful when it comes to the development of children's feet. Joy's distinctive heel cup and longitudinal arch support keep the foot in a naturally balanced position. Joy actively protects the ankle joint and counteracts deflection and deformation of the longitudinal arch which helps prevent the development of "splayfoot".

### \*KID'S SPORT

#### Art. 1831

A children's insole with semi-rigid orthotic arch support and heel cushion. Sport is made of highly absorbent cotton terry and airy sisal which gently cushions the foot and keeps shoes fresh. Sport provides support and helps prevent fatigue. Anti-bacterial and Washable. Air after each use.

### \*BAMBINI

#### Art. 192

A 3/4 Length Children's Footbed with Vegetable Tanned Leather. The Footbed is flexible and highly adaptive which strengthens the foot's muscular apparatus. Keeps foot in a natural balance, protects ankle joint and counteracts deformation of the longitudinal arch.

### KID'S LEATHER

#### Art. 110C

Naturally tanned, prime quality, breathable, leather insole with activated carbon filter absorbs excess moisture and odor. Leather keeps feet and shoes fresh and dry. Hygienic and Antibacterial.

Pedag has been manufactured in Germany since 1955. Pedag works almost exclusively with top quality, actively breathing, natural materials such as vegetable tanned leather, pure wool, cotton, sisal, and charcoal. These materials will absorb moisture leaving the feet dry and the shoes fresh.

Pedag's children's orthotics have been developed by pediatric podiatrists to relieve and prevent many children's common foot problems. Pedag is proud to have earned the American Podiatric Medical Association Seal of Acceptance for 2 of the insoles discussed in the brochure.
