Longitudinal Arch Inserts.....Page 11

Heel Pads for a Variety of Conditions .....Pages 12-14

- All Pedag insoles are made (much of the process is done by hand) in Zeesen, Germany.
- A wide range of insoles address many foot conditions, so there is usually more than one option for any condition.
- Our semi-rigid insoles use a heat-moldable polypropylene footbed.
- Pedag is known for using high quality natural materials to make anatomically correct orthotics.
- Insoles are typically inserted on top of the shoe manufacturer's insoles.
- All insoles are made with water based, not petroleum based, adhesives.
- Insoles are made of natural materials like vegetable-tanned leather, sheepskin, cotton, sisal, charcoal, and wool.
- Many insoles use active carbon filters or nano-sized silver ions to prevent the growth of bacteria and control foot odors.
- Many insoles are made with hypoallergenic latex.

## Full Length

### VIVA

- Sturdy support for the longitudinal arch and a built-in orthopedic insert for the latitudinal arch (metatarsal)
- Heat moldable polypropylene footbed
- Heel pad relieves pressure and impact on the heel.
- Orthopedic design which helps prevent and relieves flatfeet by relieving pressure on the ball and arch of the foot
- Allows the foot to maintain and to regain an anatomically correct position
- Recommended for those who suffer from Plantar Fasciitis
- High quality vegetable tanned leather with herbal extracts for the optimum shoe climate
- Purifying active carbon filter to help prevent foot odor

**Women's Size: 5-12**

**Men's Size: 7-15**

**ART. 18747**

### MASTER

- Same orthopedic foot bed as Viva and Holiday which prevents and relieves the symptoms of flattened longitudinal and metatarsal arches
- Heat moldable polypropylene footbed
- Extra soft heel pad relieves pressure & impact on the heel
- Foot bed is covered by a thick cushion of compressed Jute Felt which is non-abrasive and absorbent
- Cushioning makes Master especially adapted for work boots, leisure boots and athletic shoes
- Recommended for those who suffer from Plantar Fasciitis
- Charcoal filter to prevent odor
- Antibacterial treatment, extremely hygienic

**Women's Size: 5-12**

**Men's Size: 7-15**

**ART. 186**

### VITALITY

- Sturdy support for the longitudinal arch and a built-in orthopedic insert for the latitudinal arch (metatarsal)
- Orthopedic design which helps prevent and relieves flatfeet by relieving pressure on the ball and arch of the foot
- Heat moldable polypropylene footbed
- Heel pad relieves pressure and impact on the heel.
- Recommended for those who suffer from Plantar Fasciitis
- Allows the foot to maintain and to regain an anatomically correct position.
- Thin enough to fit in almost any shoe

**Women's Size: 5-12**

**Men's Size: 7-15**

**ART. 18306**

### PRO-ACTIVE XCO

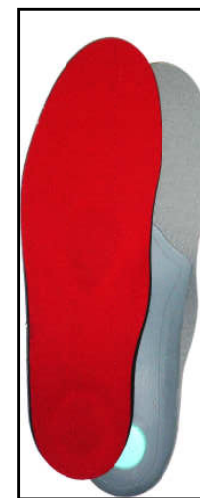

- Sturdy orthotic support of the entire plantar region including the longitudinal arch, metatarsal arch support and an extra soft heel cushion
- Heat moldable polypropylene footbed
- High impact elasticity to absorb shock during active pursuits
- Good dynamic durability (resistant to tearing and friction)
- Works in coordination with your boot or shoe's high tech water proof, breathable membrane
- Complete thermal insulation against the cold
- Suitable for people with sensitive skins
- Non-slip
- Resistant to fungi and bacteria
- Hand Washable

**Women's Size: 6-12**

**Men's Size: 7-13**

**ART. 18147**

## Full Length

### ARCTIC BLUE

- Suitable for diabetics: Proven skin-friendliness, non-friction producing, washable, and softly cushioned.
- Thermal insulation against the cold
- High impact elasticity for walking comfort
- Good dynamic durability (resistant to tearing and friction)
- Also suitable for people with sensitive skins
- Resistant to fungi and bacteria
- Washable
- Non-slip

**ART. 114**

**Women's Size: 6-12**

**Men's Size: 7-15**

### SIESTA

- Sturdy, not flexible support for the longitudinal arch and a built-in orthopedic insert for the latitudinal arch (metatarsal)
- Helps prevent and relieve flat feet
- Support allows the longitudinal, as well as latitudinal arch, to maintain and to regain their anatomically correct position
- Made of high quality leather that allows the foot to breathe
- Siesta has a purifying active carbon filter to help prevent foot odor and an anti-bacterial treatment to help prevent the growth of bacteria and fungi
- Hypoallergenic latex

**ART. 154**

**Women's Size: 5-12**

**Men's Size: 7-13**

## 3/4 Length

### HOLIDAY

- Sturdy support for the longitudinal arch and a softer orthopedic insert for the latitudinal arch (metatarsal)
- Has a heel pad which relieves pressure and impact on the heel
- Heat moldable polypropylene footbed
- Orthopedic design which helps prevent and relieves flattened arches by relieving pressure on the ball and arch of the foot
- Recommended for those who suffer from Plantar Fasciitis
- Allows the foot to maintain and to regain an anatomically correct position
- Very thin and ultra light: Thin enough to fit in almost any shoe
- Made of vegetable tanned leather which allows the foot to breathe and absorbs moisture

**Women's Size: 5-12**

**Men's Size: 7-15**

**ART. 17992**

### DE LUXE

- Sturdy support for the longitudinal arch and a built-in orthopedic inserts for the latitudinal arch (metatarsal)
- Supports allow the longitudinal, as well as latitudinal arch, to maintain and to regain their anatomically correct position
- Helps prevent and relieve flatfeet
- Anti-bacteria treatment to help prevent the growth of bacteria and fungi
- Made of high quality leather that allows the foot to breathe

**Women's Size: 6-12**

**ART. 123**

## 3/4 Length

### RELAX

- Anatomically shaped heel cup, flexible arch support and metatarsal pad
- Overall relaxation and relief for the entire foot
- Vegetable tanned leather lets foot breathe

ART. 127

Women's Size: 6-12

Men's Size: 7-13

### CORRECT PLUS

- Efficient correction of the flexing action during walking: A heel wedge adjusts the heel motion and a forefoot wedge controls flexing in the forefoot
- Compensation for the tendency toward supination or "bow legs"
- Perfect compensation for shoe heels worn down on the outside
- Vegetable tanned leather and latex

ART. 129283

Women's Size's: M 4-7, L 8-12

## Met Pads

### COMFORT

- T-form metatarsal pad prevents & alleviates symptoms of severe flattened metatarsal arch
- Extra soft heel padding for more comfort
- Made of vegetable tanned leather specifically designed for severely flattened metatarsal arch
- Ideal to wear in any flat shoes
- Hypoallergenic latex

Women's Size: 5-12

Men's Size: 7-13

### ART. 142

### QUEEN

- For severely flat metatarsal arch
- Small and extra thin
- Narrow; designed for open shoes such as sandals
- Vegetable tanned leather
- Self adhesive
- Hypoallergenic latex

Women's Size: 5/6-11/12

### ART. 124

## Met Pads

### DROP

- Orthopedic insert which allows the metatarsal bones to regain and retain it's natural position
- Alleviates the burning and stinging pains due to a mildly flattened metatarsal
- Easily attaches to the inside of the shoe with a self adhesive foil
- Made of the finest vegetable leather
- Hypoallergenic latex

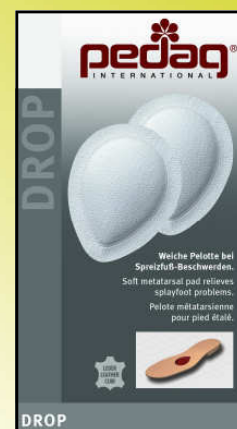

**Size: S = Women's 5-7**

**Size: M = Women's 8-10**

**Size: L = Men's 7-10**

**Size: XL = Men's 11-15**

**ART. 134**

### T-FORM

- Orthopedic insert which allows the metatarsal bones to regain and retain it's natural position
- Alleviates the burning and stinging pains due to a mildly flattened metatarsal
- Easily attaches to the inside of the shoe with a self adhesive foil
- Made of the finest vegetable leather
- Hypoallergenic latex

**Size: S = Women's 5-7**

**Size: M = Women's 8-10**

**Size: L = Men's 7-10**

**Size: XL = Men's 11-15**

**ART. 135**

## Arch Inserts

### BALANCE

- Supports the longitudinal arch by equally distributing bodyweight when standing and walking
- Unique, asymmetrically shaped flatfoot wedge helps shift body weight to the strong, supportive heel bone
- Prevents and relieves pain caused by flat feet or pronation and supination
- Made of shock absorbing moss rubber and fine leather
- Self adhesive

**Size: S = Children's 13 – Women's 4**

**Size: M = Women's 5-8**

**Size: L = Women's 9 - Men's 9**

**Size: XL = Men's 10-13**

**ART. 165**

### STEP

- Insert supports the longitudinal arch
- Prevents undue strain and weakening
- Already affected feet get proper support which prevents further development of flatfoot
- Flexible to easily fit in any shoe
- Made of the finest sheepskin leather and moss rubber
- Self-adhesive foil

**Size: S = Women's 5-7**

**Size: M = Women's 8-10**

**Size: L = Men's 7-10**

**Size: XL = Men's 11-15**

**ART. 16647**

## Heel Pads

### POINT

- Anatomically shaped orthotic heel pad
- Supports the weight of the body, and provides a comfortable "bed" for heel spurs
- Rubber filing may be removed to produce a "donut" hole to cushion heel spur even further
- Made of moss rubber covered and with vegetable tanned leather
- Anti-slip adhesive spot

**Size: S = Women's 5-7**  
**Size: M = Women's 8-10**  
**Size: L = Men's 7-10**  
**Size: XL = Men's 11-15**

**ART. 190**

### POINT PLUS

- Unique, asymmetrical, anatomically shaped orthotic heel pad which supports the weight of the body
- Provides a comfortable "bed" for heel spurs
- Rubber filing may be removed to produce a "donut" hole to cushion heel spur even further
- Shock-absorbent heel bed made of finest leather and high quality moss rubber
- Anti-slip adhesive spot

**Size: S = Women's 5-7**  
**Size: M = Women's 8-10**  
**Size: L = Men's 7-10**  
**Size: XL = Men's 11-15**

**ART. 201**

## Heel Pads

### CORRECT

- Compensates for a tendency toward either Pronation "knock-knees" or Supination "bow legs"
- Provides compensation for worn heels
- A step "straightener"
- Anti-slip
- Self adhesive spot

**Size: S = Women's 5-7**  
**Size: M = Women's 8-10**  
**Size: L = Men's 7-10**  
**Size: XL = Men's 11-15**

**ART. 129**

### STABIL

- An orthotic insert that holds and lifts the strained heel and relieves pressure on the Achilles tendon
- Can be used in only one shoe to equalize legs of uneven lengths
- Can be used to lift the heel so it does not rub against the shoe, for fitting purposes
- Made of finest leather
- Self adhesive spot

**Size: S = Women's 5-7**  
**Size: M = Women's 8-10**  
**Size: L = Men's 7-10**  
**Size: XL = Men's 11-15**

**ART. 169**

## Heel Pads

### PERFEKT

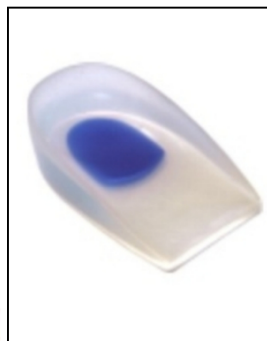

- Designed to relieve heel pain by absorbing shock
- Relieves the feet, knees and hip joints
- Particularly soft, orthotic heel pad
- Made of sheepskin
- Anti-slip adhesive spot
- Hypoallergenic latex

**Size: S = Women's 5-7**  
**Size: M = Women's 8-10**  
**Size: L = Men's 7-10**  
**Size: XL = Men's 11-15**

**ART. 13336**

### ULTRA HEEL

- A shock absorbing, soft gel, heel cup which cushions against impact and prevents heel problems
- Excellent solution for mild to moderate heel spur and Achilles Tendonitis problems
- It helps prevent injury from abrupt twisting
- Protects the foot, knee and hip joints as well as the lumbar and cervical spine
- Made of two types of gel: Soft-X gel cushions against impact to the heel when active and the Soft-X20 gel cushion relieves the heel point and heel spur pain if present

**Size: S = Women's 5-7**  
**Size: M = Women's 8-10**  
**Size: L = Men's 7-10**  
**Size: XL = Men's 11-15**

**ART. 174**
