TOP SELLER !

Ultra light, thin, 3/4 semi-rigid footbed which relieves and stimulates tired feet. Holiday is very thin and made of prime quality sheepskin tanned with herbal extracts for optimum shoe climate. Holiday insole has an orthopedic design which helps prevent and relieves "splayfoot" by relieving pressure on the ball and arch of the foot.

Pedag Holiday

- Holiday is recommended for those who suffer from
- ***Plantar Fasciitis***. Holiday features a sturdy support for the ***longitudinal arch*** and a built-in ***orthopedic insert/pellet*** for the ***latitudinal arch (metatarsal)***. These supports allow the foot to maintain and to regain an anatomically correct position.
- Holiday also has a heel pad which relieves pressure and impact on the heel. Holiday is thin enough to fit in almost any shoe.
- **Accepted by the APMA**
