

The soft foot support for particularly sensitive feet

- Super soft, ultra lightweight (just 55 grams per pair)
- Totally flexible
- Surface material: The nora® padding material
 - is particularly kind to the skin
 - is highly elastic
 - features good shock absorbing properties
 - has high recovery capabilities.
- Suitable for diabetics and rheumatics due to the closed cell structure of the surface material as well as its amazing softness and skin tolerance.
- Tested according to EU standards: PFI and SG criteria
- Can be washed and disinfected 

Benefits

- Edge-free soft foot support
- Flexible heel and longitudinal control do not create any pressure
- Highly shock absorbent and provides comfortable padding and functional bedding for the entire foot
- Relieves pressure on the knee and hip joints as well as on the spine
- Optimal plane distribution of compressive stress
- Supports the flexing motion with a slightly raised outside edge at the forefoot (pronation wedge)
- Helps to alleviate symptoms such as cold and burning feet
- Helps prevent diabetes-related skin damage

Available sizes: 35-46

Tip: Can be easily cut to fit if necessary
