

3/4 foot support - for when there is no space in the shoe

- ① Finest vegetable tanned leather
- ② Heel cushion
- ③ Metatarsal pad
- ④ Semi-rigid arch and plantar vault support

- ① *Finest, durable vegetable tanned leather, ultra light and thin, breathable, absorbent and keeps a pleasant and hygienic microclimate in the shoe*
- ② *Heel pad absorbs shock, relieves the heel, joints, hip, spine and neck*
- ③ *Metatarsal pad prevents splayfoot and alleviates symptoms of splayfoot*
- ④ *Anatomically shaped design efficiently supports the longitudinal arch and helps prevent fatigue*

Sizes available 35 – 48

- Feel the difference ▶ Feel the comfort: put one foot support into the left shoe and compare left and right. Feel the arch support, metatarsal pad and heel cushion.
- Did you know? ▶ Full length arch supports and Pedag's natural, absorbent materials provide the most comfort because:
 - they cushion the forefoot and
 - feet have thousands of sweat glands but the majority are in the forefoot.

But, if the shoe is tight in the forefoot then VIVA® MINI is the best choice.
- Benefits ▶ Wear it in even snug, tight shoes – takes up no toe room.
 ▶ Fits in most shoes - Always wear your arch support
 ▶ Keep active longer: Prevents fatigue and long term problems. Prevention is better than cure.
 ▶ Perfect for open-toed shoes
- Tip ▶ Please air after each use!
