

## Pedag Winter Insoles

### Solar

Art. 145

The winter insole that protects against cold and wet. Solar is extremely warm yet exceptionally thin. Three layers combine to produce a highly effective thermal shield: Pure wool, thousands of air bubbles encapsulated in high tech foam and on the bottom, a special, NASA type aluminum heat reflector.

### Artic Blue

Art. 114

Warming insole made from innovative special material. High tech foam with millions of closed air cushion cells for isolation against cold. Particularly suitable for shoes with climate membranes Arctic Blue has high shock elasticity for particularly comfortable walking and running. Arctic Blue has high dynamic capacity and is tear proof and hardwearing. Good adhesive properties in the shoe. Tested by Dermatologists and found to be suitable for persons with very sensitive skin. Arctic Blue is resistant to fungi and bacteria and is washable. Suitable for diabetics.

### Alaska

Art. 112

Made from real lamb's wool Alaska which your feet comfortably warm and dry on cold winter days. Anti-slip, textured latex securely holds insole in place and provides support.

### Solar Plus

Art. 198 \*

Full length, 3-layer, Thermo Active foot bed, for winter shoes & boots. Layers of pure unbleached wool that absorbs moisture while keeping your feet warm, high tech foam and an aluminum foil layer insulates against cold from the ground. Metatarsal pad prevents & alleviates symptoms of splayfoot. Anatomically shaped Footbed takes the strain off the arch and the ball of the foot. The soothing heel pad acts as a shock absorber.

### Pascha

Art. 130

Full length insole made of genuine sheepskin to keep your feet warm and cozy. Cork insulates against the cold ground. Luxurious natural sheepskin.

Pedag has been manufactured in Germany since 1955. Pedag works almost exclusively with top quality, actively breathing, natural materials such as vegetable tanned leather, pure wool, cotton, sisal, and charcoal. These materials will absorb moisture leaving the feet dry and the shoes fresh.
